

Introduction

The Consortium MUNDUSFOR will carry out its first Guidance and Integration Seminar from the 11th to 15th February as is stated in the Master Programme. Its main goals are: to facilitate social cohesion among students and academic staff; to offer common elements of reflection about education and teaching training, based on the Visiting Professors' presentations; to provide information about the specialities studied during the third and fourth semesters of the Master, as well as practical information about the mobility organization among universities.

Together with the academic activities, several social activities and guided visits have been planned during the seminar in order to know the cultural environment of the University of Granada and facilitate a warm experience together among the participants.
