- Acquire skills in the areas specific proposals regarding the humanities, communication, research and training.
- Acquire skills in science related to health sciences and food and human nutrition

OBJECTIVES (EXPRESSED IN TERMS OF EXPECTED RESULTS OF THE TEACHING PROGRAMME)

- Be able to understand the diversity of factors that determine and condition the power.
- Power explore the historical and cultural evolution of the patterns of production and consumption commensality.
- Understand the importance of nutrition in maintaining health and well-being and their relationship to disease.
- To reflect on the influence of the media on the current supply.
- Understand and convey to the general population health knowledge, mainly in relation to food.

DETAILED SUBJECT SYLLABUS

THEORETICAL

Item 1. INTRODUCTION. Notion and delimitation of the subject. Feeding and nutrition. Man as omnivorous animal. Concept of culture and eating behavior.

Item 2. DIET AND CULTURE. Human food in different types of societies. Concept of adaptation. Examples of food adaptation.

Item 3. FACTORS DETERMINING THE POWER. The cultural and ideological meaning of food. Diet and gender. Social differentiation and power. Commensality patterns in different cultures. Production, consumption and behavior.

Item 4. RELIGION AND FOOD. Permitted and prohibited foods. Relationship between food and rituals. Practices and eating behaviors related to religion.

Item 5. CULTURAL FUNCTIONS OF FOOD. Social relations. Expressing feelings, prestige, power or group membership.

Item 6. FOOD HISTORICAL BASES I. Major changes in human food in various stages of history: Prehistory, Antiquity, Middle Ages. Causes and consequences.

Item 7. FOOD HISTORICAL BASES II. Al-Andalus. Impact of the discovery of America in European diets and new world. Modern Age.

Item 8. FOOD AND SCIENTIFIC PROGRESS. The industrial revolution. Impact of scientific discovery and technological development in food.

Item 9. THE MEDITERRANEAN DIET. Introduction. Geographical framework. Definition, origin, evolution, characteristics and current importance.

Item 10. CONTEMPORARY FOOD I. Socio-economic and demographic factors that determine the current power. Food and immigration. Hunger and abundance in the world, myths and realities.

Item 11. CONTEMPORARY POWER II. New trends in food. Boom catering and fast food. Interest in diet and health.

Item 12. Acceptability FOOD. Introduction. Constraints physiological, psychological and sociological influence the acceptability of food. Quality Concept.

Item 13. ASSESSMENT METHODS FOOD Acceptability. Concept and current interest. Basis and methodology. Applications.

Item 14. COMMUNICATION TECHNIQUES. Marketing food. Marketing elements. Resources in food advertising. The influence of advertising on eating behavior

PRACTICAL:

- Practice 1. - Screening of videos related to socio-cultural aspects of food. Debate on them. Responding to a questionnaire.
- Practice 2. - Reading and books or articles of interest. Sharing.
- Practice 3. - The power in film and literature. Sequence analysis of films and books which show different cultural, ideological, religious or social related to food.
- Practice 4. - The marketing and advertising in the food sector. Search advertising claims: Analysis of messages and strategies.
- Practice 5. - Jobs targeted research and literature search. Work will be done in groups according to the scheme outlined:
 - Students will form working groups 3 people maximum. One student from each group will send a message to the teacher indicating the names of the members of your group. Establishing a deadline for sending this information. Students who have not joined a working group will be assigned to a group by the teachers.
 - Proposed works: Each group should choose one of the proposed work and indicate the group.
 - If any group wants to do work on other topic proposed, teachers should inform well in advance in order to plan for it.
 - Elaboration and presentation of work: You have to submit in writing the work, to be supervised by teachers, before the day of your presentation and defense. The presentation and defense of the same will be done through a PowerPoint presentation in a time of 30 minutes, a time for discussion and questions. Teachers choose the day of the show. All forms of work, remain available to all students using the platform Swad.
 - Day exhibition. Each group will be assigned a day of work exposure (all students must attend a mandatory basis for the exhibition of the work).

Practices are mandatory. Attendance and participation will count towards the qualification of the practice. Exhibitions of works and discussions held during the practical sessions, questions asked in the partial and final exam.
