

SUBJECT GUIDE

# Nutrition and Aging

MODULE	CONTENT	YEAR	TERM	CREDITS	TYPE				
	Nutrition and Aging	4º	1	6					
<b>LECTURER(S)</b>		<b>Postal address, telephone nº, e-mail address</b>							
Mª Dolores Ruiz López, Reyes Artacho Martín-Lagos		Dpto. Nutrición y Bromatología, 3ª planta. Facultad de Farmacia. 18071							
<b>DEGREE WITHIN WHICH THE SUBJECT IS TAUGHT</b>									
Human Nutrition and Dietetics									
<b>PREREQUISITES and/or RECOMMENDATIONS (if necessary)</b>									
Having studied the subjects of: Food Science, Nutrition I, Nutrition II, and Principles of Dietetic.									
<b>BRIEF ACCOUNT OF THE SUBJECT PROGRAMME (ACCORDING TO THE DEGREE VERIFICATION)</b>									
Aging: concept, definition. Demographic aspects of aging. Theories on aging. Physiological psychological and socio-economic aspects of aging which affect nutritional status. Nutritional requirements: macro and micronutrients. Dietary guidelines for older population. Nutritional assessment in older people. Nutritional care for the elderly. Dietary planning. Community nutritional programs. Nutritional needs during prolonged illness. Nutritional care in institutionalized setting.									
<b>GENERAL AND PARTICULAR ABILITIES</b>									
<p>General abilities</p> <ul style="list-style-type: none"><li>- Those students can apply their knowledge to their work or vocation professionally.</li><li>- Ability to gather and interpret relevant data to make judgments</li><li>- Potential to communicate information, ideas, problems and solutions to a specialized and unskilled audience.</li><li>- Troubleshooting</li><li>- Ability to apply theoretical knowledge to practice</li></ul>									

- Motivation for quality
- Ability to organize and plan
- Ability to manage information

Particular abilities

- Understanding the influence of feeding on active aging
- Knowing the specific characteristics (physiological, psychological and social) of population which determine their nutritional status
- Plan, perform and interpret the assessment of nutritional status in elderly population
- Knowing the legal and ethical limits of dietary practice

## OBJETIVES (EXPRESS IN TERMS OF EXPECTED RESULTS OF TEACHING PROGRAMME)

- Properly handling of the tools to make an assessment of the nutritional status in an elderly subject.
- Knowing how to plan a diet based on the nutritional status of the older person

## DETAILED SUBJECT SYLLABUS

1. Aging: concept and definition
2. Demographic aspects of aging
3. Theories on aging
4. Physiological aspects of aging that affect nutritional status
5. Psychological and socio-economic aspects of aging that affect nutritional status
6. Influence of diet on aging
7. Nutritional requirements: macro and micronutrients
8. Dietary guidelines for older population
9. Nutritional education in elderly
10. Nutritional assessment in older people
11. Nutritional risk
12. Food in healthy older people
13. Malnutrition.
14. Nutritional care in institutionalized setting.
15. Epidemiological studies
