

Recommendations to authors

Dear contributors,

Revista de Paz y Conflictos has established the following orientations for authors:

1. All the submitted works must take into account the norms that are detailed in this webpage.
2. In the case of **articles**, authors must respond before some **20 days** to the suggestions made by the refferees.
3. In the case of **summaries of research works**, which are not subject to external evaluation, these will be nevertheless evaluated by two members of the editorial board.
4. In the case of **book reviews**, it is recommended that the reviewed work has been published within the two or, at most, three years previous to the scheduled date of publication of the journal. E.g., reviews for issue #3 (2010) should deal with books published in 2009, 2008 and, excepcionally, 2007.

We hope these orientations contribute to improve the quality of *Revista de Paz y Conflictos*.

Cordially,

The editorial board.
