Excellence & Quality

Quality of teaching and services

Our University is committed to quality in higher education and it aims to guarantee, improve and be accountable for this, both to our University Community and to society in general, in relation to its services, teaching staff and qualifications. With this in mind, the Vice-Rector's Office for Quality Assurance promotes and stimulates the creation of systematic internal quality assurance mechanisms on several levels (in the institution as a whole, in centres, in services and in qualifications).
