

dentalcare.com CE Online Interactive Course

Procter & Gamble verifies that

Prof. Alberto Rodriguez-Archilla

Is Awarded 2 Hour(s) of Continuing Education Credit for Successful Completion of:
From Evidence to Causality: How do We Determine Causality?

Salme E. Lavigne, RDH, PhD

Method: Self-instructional
AGD Subject Code(s): 149

Upon completion of this course, the dental professional should be able to:

- Define causality and causal inference.
- Discuss the importance of making causally-related statements to patients.
- Differentiate between association, relationship, and causation.
- Discuss the principles of causation and how they are used to determine causality.
- Discuss the differences between the types of studies that are used to determine causality.
- Assess evidence for causation using applied epidemiological methods.
- Discuss how to use the principles of causation in clinical practice to answer patient concerns regarding media announcements that pertain to oral health practitioners.
