

# 5<sup>th</sup> International Conference on Approximation Methods and Numerical Modeling in Environment and Natural Resources

## MAMERN V-2013

April 22-25, 2013  
Granada - Spain

<http://www.ugr.es/local/mamern>  
[mamern@ugr.es](mailto:mamern@ugr.es)

### TOPICS

- Approximation and modeling applied to environment sciences and natural resources.
- New applications and developments in approximation methods.
- Mathematics and computation in geosciences.
- Modeling of ecosystems.
- Oceanographic and coastal engineering.
- Numerical modeling of flow and transport in porous media.
- Mathematical analysis of models in porous media.
- Multi-scale modeling of flow and transport in porous media.
- Statistical modeling in geosciences.
- Stochastic partial differential equations.

Co-sponsored by IMACS

Departamento de  
Matemática  
Aplicada

University of Granada, Spain  
University of Pau and Pays de l'Adour, CNRS, France  
University Mohammed I Oujda, CNRST, Morocco
