

# 5<sup>th</sup> International Conference on Approximation Methods and Numerical Modeling in Environment and Natural Resources

## MAMERN V-2013

April 22-25, 2013

Granada - Spain

### TOPICS

- Approximation and modeling applied to environment sciences and natural resources.
- New applications and developments in approximation methods.
- Mathematics and computation in geosciences.
- Modeling of ecosystems.
- Oceanographic and coastal engineering.
- Numerical modeling of flow and transport in porous media.
- Mathematical analysis of models in porous media.
- Multi-scale modeling of flow and transport in porous media.
- Statistical modeling in geosciences.
- Stochastic partial differential equations.
