How to Collaborate

If you wish to obtain information about specific UGR research groups and researchers, you can do so via the following link below to the UGR Investiga webpage. Via this link you can explore relevant information about specific research groups, such as:

- The specific members involved
- Research production and output (articles, books, chapters and supervised theses)
- Current and past research projects (specific projects, signed contracts and agreements)
- Activities
- Research partners and collaborators involved

If you wish to join, collaborate with, or contact a UGR research group, you can also do so via the following link, where you can obtain the relevant contact details by clicking on the Responsable del Grupo (the research group director).
